SUMMARY

Frontend Developer with 1.5+ years of experience building scalable web and mobile applications using React.js, Next.js (TypeScript), and React Native. Proficient in developing reusable components, integrating APIs, and optimizing performance to deliver fast, responsive, and user-friendly interfaces across devices.

TECHNICAL SKILLS

- **Frontend Technologies:** HTML, CSS, JavaScript, TypeScript, React.js, Next.js, React Native, Redux, Zest
- **Backend (Basic Knowledge):** Node.js, MongoDB, SQL
- **Development Tools:** Visual Studio Code, Git, GitHub, Figma, Postman, Storybook, npm, Vercel
- **Additional Skills:** Responsive Design, REST API Integration, UI/UX Design, CI/CD, Unit Testing
- **Languages:** English, Hindi, Marathi

WORK EXPERIENCE

Software Developer at Infusyx Services

June 2025 – Present

- Developed and maintained **Reusable UI** components using **React, Next.js, and TypeScript**, integrating APIs and managing state with Redux/Context API.
- Handled end-to-end feature implementation, from designing frontend flows to debugging and fixing **UI/UX bugs** across browsers and screen sizes.
- Managed source control and collaborated via GitHub, implemented **CI/CD** workflows for automated testing and deployment using **GitHub Actions**.
- Actively participating in code reviews, contributing to **architectural decisions**, and enforcing best practices to maintain **code quality**.

Frontend Developer at loweb3

Oct 2024 - May 2025

- Led the development of high-performance, scalable applications using **React.js, Next.js (TypeScript)**, and delivering seamless user experiences.
- Designed and optimized intuitive UI components, ensuring cross-platform consistency and **boosting user engagement**.
- Implemented cutting-edge UI/UX strategies, streamlining workflows and reducing user drop-offs, resulting in higher retention rates.
- Refactored frontend architecture, improving efficiency, **cutting load times by 50%**, and enhancing overall system responsiveness.

React Developer at AppyStack Pvt Ltd.

Jan 2024 - Oct 2024

- Developed and optimized **dynamic web and Mobile applications** using **React.js** and **React Native**, ensuring high **performance** and **scalability** across diverse projects.
- Worked closely with **design and backend teams** to translate complex requirements into **intuitive, user-friendly interfaces**, significantly improving user engagement.
- Implemented modern **UI/UX practices** with a focus on **responsive design**, ensuring seamless experiences across devices and cross-browser compatibility.

PROJECTS

- **FormPilot** : A scalable and developer-friendly solution for seamless form handling across any website or application. A full-stack SaaS platform for managing form submissions, allowing developers to easily create, embed, and handle forms with features like API integration, spam protection, email notifications, and a dashboard for analytics. (Next.js, TypeScript, Node.js, PostgreSQL, TailwindCSS, CI/CD, Vercel) [Live](#)
- **EnvShare** : A secure platform for sharing environment files and project configurations using unique access IDs. Offers role-based access and strong authentication for safe collaboration. [Link](#)
- Built for teams and developers to share sensitive files without risking leaks or unauthorized access.(Next.js, TypeScript, Tailwind CSS, Vercel, Upstash, Node.js, MongoDB JWT Auth)
- **TrustScribe** : A testimonial management SaaS platform to collect, manage, and display customer testimonials. Includes AI chatbot, video feedback, customizable widgets, analytics, and secure payment integration. Empowers businesses to boost trust and conversions by showcasing authentic customer stories.(Next.js, TypeScript, Tailwind CSS, Clerk, Stripe, Supabase, Vercel) [Link](#)

EDUCATION

Bachelor in Computer Application (BCA)	July 2020 - Aug 2023
D.G.C.C.Satara	CGPA 8.28/10
HSC(XI-XII)	Aug 2018 - Aug 2020
D.G.C.C.Satara	57.82%
